In this Easy Read document, difficult words are in **bold**. We explain what these words mean in the sentence after they have been used.

Some words are pink and underlined. These are links which will go to another website which has more information.

# Introduction

We are Healthwatch. We work to make sure health and care services are the best they can be for the people who use them.

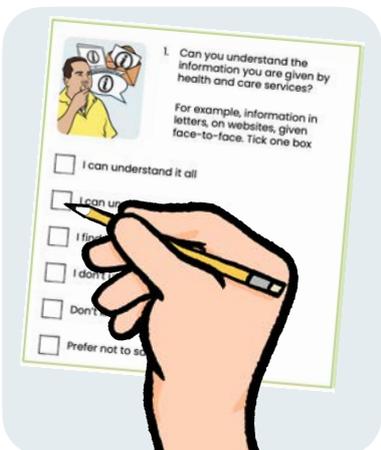

We want to hear about your experience with health and care services when they:

- communicate with you, and
- give you information.

Please tell us about your experience by answering the questions in this survey.

Your answers will help us to talk to health and care services about how they can improve.

# Accessible Information Standard

This survey is part of our campaign to make people aware of the **Accessible Information Standard**.

The **Accessible Information Standard** is a law that says all health and care services have to:

- communicate in different ways for people with different needs.
- provide information that is clear and easy for people to understand.

# Survey questions

1. Can you understand the information you are given by health and care services?

For example, information in letters, on websites, given face-to-face. Tick one box

- I can understand it all
