

Help us make digital health and care services work better for you.

Bedfordshire, Luton and Milton Keynes Health and Care Partnership is developing a Digital Strategy to reflect how health and care services will be delivered in the future, making best use of the technology available. A Digital Strategy is a plan that explains how we will use digital services in the future.

We would like to understand how residents feel about digital health and care services, how services can be improved, what they think works well and what barriers there may be to residents being able to access services digitally.

Join one of our focus groups and share your views

Local Authority	Focus Group 1	Focus Group 2
Bedford Borough	15 th November, 5:30pm to 8:30pm	16 th November, 09:30am to 12:30pm
